校長的話 Message from the Principal

做人要善良 做事要謙卑

凡事不可結黨,不可貪圖虛浮的榮耀,只要存心謙卑,各人 看別人比自己強。各人不要單顧自己的事,也要顧別人的事。

(腓立比書 2:3-4)

Being kindhearted as a person and being humble when doing things

Do nothing out of selfish ambition or vain conceit, but in humility consider others better than yourselves. Each of you should look not only to your own interests, but also to the interests of others.

(Philippians 2:3-4)

各位同學,過去一年,許多風風雨雨,同學心裏肯定是忐忑不安,情緒以及學習的心或多或少都受到影響。在此,我希望同學時刻謹記,不管外面的風浪有多高、暴雨有多大,同學須保持一顆善良的心,無論面對任何事情,善良的人定必得到平安。

相信同學們對孟子這位聖人不會感到陌生。縱然生於亂世,戰禍不斷,篡弒頻仍,孟子仍深信人性本善。 人,與生俱來就有良知,人之所以有惡行,是因為善良的小種子雖根植在心,但如果缺乏教育,欠缺學習的 陽光與養分,又或是受到貪念蒙蔽,嫉妒的破壞,善良的種子就無法萌芽生長。如聖經說的,人就會變得虚 浮,只顧自己的事,而置別人於不顧;為達到目的,無所不用其極,離開善良的上帝就越來越遠了!

在成長的過程中,我們都可能做過一些錯事,試想想,誰沒有取笑過同學——羞辱他人?誰沒有因貪一時之快而胡亂過馬路——違反規則?又或是因躲懶而欠交功課——逃避責任?所謂「無心而誤,謂之過;有心而為,則謂之惡」,如果只是一時疏忽,那就不要再犯,我們還是一個好人;但若有心為之,我希望你能徹底改過。正如孟子所言:人皆有不忍人之心,所謂「不忍人之心」,也可理解為善良,「無此心者,非人也。」我們亦要對自己有信心,要相信自己能夠抱持善良的心,靠着禱告,盡力行善,克制自己不做惡事;因為上帝不喜歡「惡」。

行善不難,難在持續。街上不時有賣旗籌款的活動。要路人捐出一元半塊,很少會被拒絕。然而那些捐款的人,有多少會在沒人要求下主動地繼續行善?諾貝爾和平獎得主德蘭修女自 12 歲起便立願幫助窮苦大眾,直至 87 歲逝世,她的足跡遍佈世界最貧苦處。在戰火中,她以身犯險,救出婦女兒童;一路上看到垂死的乞丐,她把他抱在懷裏照顧。沒有監察、沒有威逼,更沒有利誘,德蘭修女切實地貫徹行善。同學們,我不是要求大家都成為德蘭修女這樣的聖人,但至少我們要常常提醒自己做人要善良,做事要謙卑;害人的惡事半點也不要做。善惡由心,放縱私慾行惡,不管嘴上如何用言詞掩飾,終歸逃不過良心,也逃不出世人的眼,畢竟「積善三年,知之者少;為惡一日,聞於天下。」

不知道大家是否還記得去年本校的主題金句?「不可叫人小看你年輕,總要在言語、行為、愛心、信心、清潔上,都做信徒的榜樣。」(提摩太前書 4:12)當中提到的「清潔」可以理解為要有無虧的良心,在神和人面前都持有這顆心,不傷害別人,不沾污自己。

Being kindhearted as a person and being humble when doing things

We have come across myriads of ups and downs in the past year and students may be perturbed. As a result, your mood and studies can be affected to a certain extent. I would like to take this opportunity to remind you that no matter how adverse the outside environment is, you must possess a kind heart. People who are kind must be safe no matter what challenges they are facing.

I think that students must be familiar with Mencius – a renowned sage in history. Although he was born during chaotic times with continuous wars where killings and revolutions were commonly found, Mencius still believed that humans were born kind and honest. What's more, he insisted that we, humans, possessed inborn conscience. Although the seed of conscience was planted in our mind, with the lack of education and learning which in turn served as sunshine and nutrients, or deceived by greed or destroyed by jealousy, this seed cannot grow healthily or properly. Just like what the Bible said, we would become impractical and only care about ourselves, without taking others into consideration. We might even employ all means in order to get what we wanted. Thus, we would be farther and farther away from our kindhearted God.

Perhaps we made certain mistakes during the developmental process. Is there anyone who has not teased other classmates or insulted others? Are there any people who cross the road randomly due to hurry and violate the road safety rules? Don't you believe that there are some lazy guys who fail to hand in homework and evade responsibility? There is an old saying — When we do something wrong because of negligence and we try not to make the same mistake again, then we can still be called a good person. However, I hope that you will thoroughly repent if you do something wrong on purpose. Mencius said that all humans possessed conscience. He added that we could not be called humans if we did not own one. We should also have trust in ourselves and believe that we can hold on to having a kind heart. Besides, we need to try our best to do good deeds but restrain ourselves from being evil by means of praying as God does not like evil.

Doing good deeds is not difficult but holding on to this is. It is quite common to come across people selling flags on the street. We will not find it difficult to ask passers-by to donate a dollar. Nonetheless, how many of these donators will continue to do good

deeds eagerly without being asked to do so? Mother Teresa, the Nobel Peace Prize winner, had vowed to give a hand to the poor since she was 12. She had been to the poorest places all over the world, offering a helping hand until she died at the age of 87. She ventured her life in saving women and children during war times. On the way, she saw a dying beggar on the roadside. She held him in her arms and took care of him, without being monitored, forced or even lured. What's more, Mother Teresa insisted on doing good deeds thoroughly and continuously. My beloved students, I do not mean that you have to become a saint just as Mother Teresa. Nevertheless, we have to always remind ourselves that we ought to be kindhearted and be humble when doing things. We should avoid doing things which may hurt others. Good deeds and evil are caused by our mind. If we do not control ourselves to harm others, we will certainly possess a guilty feeling due to our conscience and the evil will eventually be discovered although we try to cover this up by all means. After all, only very few people know that you have done loads of good deeds for three years, but all the people will notice that you have just done something bad within a day.

Don't you remember what our theme slogan last year was? "Don't let anyone look down on you because you are young, but set an example for the believers in speech, in conduct, in love, in faith and in purity." (1 Timothy 4:12) The word "purity" mentioned here refers to the fact that we possess the righteous conscience. We need to have this when facing God and people. In other words, we should neither injure others nor stain ourselves.

源流 *由詩演化而來。 *起源於唐,推衍於 五代,大盛於宋朝。

小令:五十八字以下 中調:五十九~九十

*詞發展至南宋,趨於典 雅,北方金、元俗曲,遂 應運而生

*盛行於元、明 散曲:小令、散套 *散曲:

長調:九十一字以上 散套(合一宮調諸曲)

How would you explain a social media platform to people who were from the 18th Century?

學習目標

知識: 疏通文意,理解作者的思想感情。

技巧:1.複習文言詞匯:者、也。

2. 複習一字多音、一字多義、古今詞義 詞類活用。

態度:培養批判性思維能力。

B 平方的意義

對於任意的數 a,

a²讀作「a的2次方」或「a的平方 表示 a×a。

例如: (i) 72 = 7×7

jectives of the lesson:

To identify different types of discrimination

To know the basic facts about discrimination in Hong Kong

To present your ideas cohesively & logically

A與B之間的距離(distance)可用以下 公式表示:

 $AB = \sqrt{(x_2 - x_1)^2 + (y_2 - y_1)^2}$ 斜率(slope)m 可用以下公式表示: $m=\underline{y_2-y_1}$

 $\psi \parallel b \text{(mid-point)} = \left(\frac{x_1 + x_2}{2}, \frac{y_1 + y_2}{2}\right)$ 於下列各題中兩點的距離、中點坐標和連接該兩點的直線的斜率 g. A(7,3), B(4,-1)

距離 =
$$\sqrt{(7-4)^2 + (3+1)^2}$$

= 5
斜率 = $\frac{3+1}{7-4}$

主意停頓位置 記承天寺夜遊
